Examiner's Amendment and Statement of Reasons for Allowance

Examiner's Statement

The amendment filed on 3/16/11 is acknowledged and has been entered.

The Terminal Disclaimer filed on 3/16/11 is acknowledged and has been approved.

The provisional rejection of claims 6, 44, 50, and 65 under the judicially created doctrine of obvious-type double patenting as being unpatentable over claims 28 and 39 of US copending application 09/785044 is withdrawn in view of the Terminal Disclaimer filed 3/16/11.

Claims 15, 36, 39, and 41, previously withdrawn from consideration as being drawn to nonelected species, have been rejoined and fully examined.

Claims 6-8, 10-18, 20-21, and 35-42, 44-75 are allowed.

Examiner's Amendment

Authorization for this examiner's amendment was given in a telephone interview with Chad Swantz on 4/7/11.

In claim 6 (based on the amendment filed on 3/16/11):

At the end of the claim, add a period -- . --.

Reasons for Allowance

The following is an examiner's statement of reasons for allowance:

Art Unit: 1631

The prior art does not teach or suggest an automated diagnostic system for use in a computing environment, the system comprising:

a processor configured to implement a plurality of objects which, when executed by the processor, interact to determine a diagnosis of a patient, wherein the objects include at least two of: a disease object, a symptom object, a valuator object, a question object, a node object and a candidates object, each of the objects comprising data and one or more processes that are invoked to access the data, wherein the processes of any one object are not permitted to access the data of another object; and

a digital storage device for storing the plurality of objects and the corresponding data and processes for each object.

The closest art is Iliff in view of Branson et al. (see at least the Office action mailed on 7/13/10). However, the references cited do not teach or suggest that the processes of any one object are not permitted to access the data of another object (e.g. in claim 6). The specification describes that the data of another object is encapsulated so that it cannot be accessed by the process of any other object. See also the Interview Summary mailed on 11/19/10 for an interview between applicant's representatives and SPE Marjie Moran and the undersigned examiner conducted on 11/9/10.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
